

NaviX[™]

by Schneider Electric

Accelerating The Energy Transition

Empowering organisations to realize
their net zero ambitions

Who Are We

Headquartered in Singapore and jointly incubated by Schneider Electric and Singapore's Economic Development Board, Navix Solutions is a first-to-market provider of **cleaner, greener and smarter Infrastructure as-a-Service** ("IaaS"), enabling decarbonization and accelerating the energy transition.

Climate-driven innovation and digital transformation with Schneider Electric's EcoStruxure software solutions

Enable next-gen critical infrastructures with Schneider Electric's versatile and robust range of green premium hardware products

Option for companies to stay flexible and agile by shifting from CAPEX to OPEX

We Build, Own and Maintain mission-critical M&E infrastructure

This allows businesses to reprioritize their CAPEX and resources on their core business.

-  **Maximise energy efficiency**
-  **Increase operations cost effectiveness**
-  **Accelerate return on investment (ROI)**

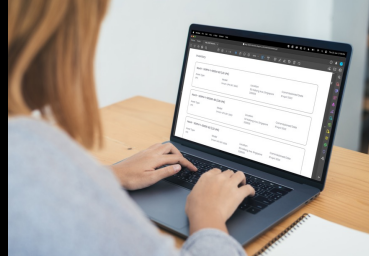

We view sustainable practices as the best way to ensure businesses stay viable for the long term. From continuously improving operational efficiency and environmental performance, to pursuing low carbon energy solutions and strategically investing for growth.

How can I trim my operating expenses?

In 2021, only 9% of companies globally achieved an actual emissions reduction of more than 4%

Boston Consulting Group GAMMA Survey

We need to identify gaps quickly.

We want to understand our assets better.

For the energy industry, the cost of downtime is calculated to be **\$2.48 million** per hour

Service Journey With NaviX

Service Journey With NaviX

Discover The Benefits

Financial Agility

- No upfront capital expenditure, moving from CAPEX to OPEX
- Asset transfer options available mid or post contract
- Consumption-based pricing model

Technology Innovation

- Gain real-time insights and analytics across all asset types through a single unified portal
- Deploy leading-edge and sustainable energy-efficient technology

Operational Performance

- Full lifecycle management
- Proactive maintenance
- Agile provisioning and capacity planning

Customer Success Management

- Single point of accountability
- Customers refocus attention on core business activities

Towards Net Zero

As a trusted **digital partner in sustainability transformation**, our company is dedicated to accelerating businesses in their net zero ambitions, providing innovative solutions that drive the transition to a sustainable and carbon-neutral future.

At NaviX Solutions, we understand the urgent need to address climate change and fast-track the global **energy transition**. Our mission is to **empower companies to become leaders in sustainability**, making a positive impact on the environment and society while achieving their **net zero goals**.

Together, we strive to build **a greener, cleaner, smarter** and more resilient world for current and future generations.
