

ENABLE BETTER.

Your Home

Power Output on Cloudy Days

Up to 50% of the solar energy is produced on cloudy days and 20% on days when it rains.

Reduce Electricity Bills

You can save up to 80% on your monthly bills when you install solar panels on your rooftop. Any excess power generated can be sold back to the power grid as rebate.

Reduce Carbon Footprint

Solar panels harvest the sun's energy to power your home so you can enjoy clean energy and reduce your carbon footprint.

Increase Property Value

Installing solar panels transforms your house into an energy-efficient home and increases your property value.
